TÜRKİYE - USA PRINTING, PAPER & PACKAGING B2B MATCHMAKING EVENT

14'th September 2026

İzmir Chamber of Commerce

Established in 1885, İzmir Chamber of Commerce was the second chamber of commerce founded in Türkiye, following that of Istanbul. It represents the business community of İzmir, one of Türkiye's three largest cities and a major centre of production, trade, exports and investment. The Chamber supports the growth and internationalisation of its members while promoting İzmir as a reliable and competitive business partner in global markets.

Our vision is to become a “Model Chamber” that leads the sectoral development and transformation of its members in line with sustainable development goals, creates value together with its stakeholders, and serves as the strong voice of İzmir in business, trade and investment.

Our mission is to strengthen İzmir's position as a centre of attraction for international trade and investment while contributing to the continuous development of the city's economic and social life. Through innovative projects and the effective use of resources, we facilitate the commercial activities of our members and provide sustainable services to both the business community and society.

A key part of this mission is to connect the high-quality, competitively priced products and manufacturing capabilities of İzmir and Türkiye with international buyers. By bringing reliable Turkish manufacturers together with importers, distributors and business partners from around the world, we aim to create mutually beneficial trade opportunities based on long-term cooperation and a win-win approach.

In line with this objective, İzmir Chamber of Commerce has been conducting International Competitiveness Development Projects, known as UR-GE Projects, in various sectors with the support of the Ministry of Trade of the Republic of Türkiye since 2012. These projects enhance the international competitiveness of participating companies, facilitate their access to global markets and enable international buyers to discover reliable suppliers offering quality production, flexible manufacturing capabilities and competitive pricing.

BOR PRINTING, LABEL PACKAGING LTD.

Bor Etiket Ltd. was founded in 2011 by Fahrettin Çiçek, whose printing career began as an apprentice in 1993. Built on years of experience, the company started production in a 450 m² facility with one Nilpeter letterpress machine and a small team. Continuous investment expanded operations to 800 m² by 2018 and introduced new offset, digital printing, slitting, cutting, and CTP systems. Today, Bor Baskı Etiket delivers fast, reliable label solutions with modern technology and an experienced team. Labels are produced using high-quality materials with full traceability. Competitive prices are determined through specialized software to ensure the best cost-performance balance. Customer-specific solutions are developed by evaluating application conditions, while dedicated support and efficient production processes ensure high customer satisfaction.

EGE-MET PAPER INDUSTRY & TRADE INC.

The roots of EGE-MET, a family-owned company operating in the paper and printing sector and currently managed by the third generation, date back to 1937. The first generation started the business in printing. The second generation expanded the company's activities and began trading in printing materials alongside printing services. In 1995, the third generation took over the management and established EGE-MET as a paper merchant company.

Today, EGE-MET operates two warehouses in İzmir with a total covered area of 15,000 m² and a paper sales volume of 60,000 tons, while also trading in printing materials. A new warehouse was opened in Gaziantep in 2019, followed by the establishment of the Istanbul warehouse in 2020. As a result, the total covered area of EGE-MET's warehouses reached 24,000 m². The Ankara Sales Office has also been active since the beginning of 2023.

With a wide product range serving numerous sectors, including printing and publishing companies, domestic paper merchants, the corrugated industry, the packaging industry and stationery businesses, EGE-MET has a customer portfolio of more than 3,500 companies throughout Türkiye.

FNS PAPER AND PRINTING SUPPLIES

FNS PAPER & PRINTING MATERIALS MARKETING, MANUFACTURING & TRADE LTD.

Our company was established in 2005. With partners Soner Ergül and Fehmi Ünal and a team of over 20 personnel, we serve the entirety of Türkiye—with a primary focus on Izmir. We expanded into the packaging sector in 2018 and operate a machinery fleet comprising three cutters, one slitter, and two guillotines, alongside a fleet of nine vehicles, to provide services involving paper, printing supplies, chemicals, and inks. Leveraging our 18 years of experience and international partnerships—most notably with Fiskeby and MM Karton—we take pride in supplying a wide range of paper products to our valued customers.

HÜRRIYET PAPER PRODUCTS, MAGAZINE OFFSET PRINTING INDUSTRY & TRADE LTD.

Hürriyet Kağıt Ürünleri Dergi Ofset Matbaacılık San. ve Tic. Ltd. Şti. is a well-established manufacturer operating in the printing and packaging industry in İzmir, Türkiye, since 1951. We provide corporate printing, label, and packaging solutions with a commitment to high quality, reliable service, and on-time delivery. Our production portfolio includes printed paperboard packaging, rigid boxes, paper bags, self-adhesive labels, catalogs, brochures, presentation folders, spiral-bound and sewn notebooks, as well as a wide range of promotional printed products. Thanks to our modern production infrastructure and experienced team, we are able to offer flexible solutions ranging from low-volume custom projects to high-volume mass production. Exporting to international markets, our company aims to establish long-term business partnerships through a quality-oriented manufacturing approach.

İKLİM INVITATION

YOLCU PRINTING & MATERIALS, MACHINERY, PAPER PACKAGING INDUSTRY & TRADE LTD.

Since 2010, İklim Invitations has been a leading manufacturer in the wedding invitation industry, combining quality, elegance, and reliability. From design and printing to finishing and final production, every stage is carried out in our own modern manufacturing facility, ensuring complete quality control and consistent excellence.

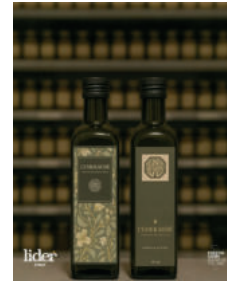

With our innovative design approach, advanced production technologies, and meticulous quality standards, we proudly supply wedding invitations and premium stationery products throughout Türkiye and export to customers across the world. By closely following global design trends, we introduce new collections each season, offering sophisticated designs that meet the expectations of diverse markets and cultures.

Built on the principles of customer satisfaction, sustainable quality, and long-term business partnerships, İklim Invitations continues to strengthen its position as a trusted manufacturer, recognized for its production expertise, reliability, and international experience.

LİDER LABEL PRINTING SOLUTIONS

Lider Etiket provides high-quality roll-label solutions for the food, cosmetics, home-care/cleaning and beverage sectors, as well as tobacco, motor oil, alcoholic/non-alcoholic beverages, edible oil, and agricultural & human-health chemicals/pharmaceuticals. Through prepress verification, CMYK/Pantone color management and calibrated proofing, we deliver results faithful to your approved artwork. With a press lineup of 1 flexo, 2 offset, 1 letterpress and 1 digital machine, we have a monthly capacity of 50 million+ labels. We work with PP, PE, paper, clear and metallized substrates and apply hot/cold foil, spot/selective varnish, lamination/overlamination and rotary die-cutting. For sector-specific needs, we offer oil/chemical-resistant adhesives, surfaces suited to cold-chain and moisture/temperature conditions, and full compliance with regulatory texts and warning pictograms. In digital printing we manage variable data (QR/serial numbers), and camera-based inspection ensures repeatability. Share your size-run-material-color specs and we will provide a same-day preliminary quotation.

ÖZALTIN PRINTING & PRINTING MATERIALS

Özaltın Ltd. was established in 2001. With its commitment to reliable service and fair pricing from the very beginning, the company has established a distinctive position within the industry. By maintaining steady growth in line with this approach and adding new dealerships to its portfolio each year, Özaltın has continuously strengthened its position in the market.

Today, operating from a 300 m² indoor facility, the company strives to provide the best possible service through its dealerships for Dyo Printing Inks, Teknova Chemicals, Delta Fancy Papers, Doğan Envelopes, Doğu Adhesives and Repromak Printing Machinery, as well as the offset printing plates it imports.

PRINTER OFFSET
